Housings for RF, Microwave, Opto
Photonics, Sub-Assemblies and Hermetics

4th February 2026

STATEMENT ON REACH

The EuroTech Group plc, are fully aware of the requirements of Regulation (EC) No EC1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) and it is our intention to fully comply with the legal requirements of this directive with the minimum disruption to yourselves.

All companies within The EuroTech Group plc are classed as 'Downstream Users' and only supply 'Articles' under the terms of REACH legislation. These 'Articles' do not contain any substances that are 'intended to be released' under the definition of REACH and as such we are not required to Pre-register or Register them. The pre-registration or registration of any formulations or substances we use in the manufacture of these 'Articles' lies with our upstream suppliers. We are constantly in contact with these suppliers to ensure they also comply with the latest revision of the legislation and have received confirmation of this.

On an on-going basis, our suppliers have also confirmed that NONE of the products supplied to any of The EuroTech Group plc companies contain any 'Substance of Very High Concern' either at or above the specified 0.1% levels as defined in the Candidate List updated as of 4th February 2026 to 253 SVHC.

The EuroTech Group plc will continue to monitor this situation and will inform its customers through updates to this compliance statement of any changes to the Regulation or Candidate List that take place.
